

Telstar Marine

For a guaranteed good night's sleep!

Telstar Marine Mattresses

For a pleasant stay on your boat or ship we can offer you a comfortable night sleep!

Relaxation on the water also includes the convenience of a comfortable bed. Telstar Marine mattresses can guarantee you a good night's sleep on board your boat or ship.

You will be pleasantly surprised about Telstar Marine mattresses. Our range offers different type of comforts, from firm mattresses to softer mattresses. By using a mix of materials such as pocket springs, comfort foam, talalay latex, 3D fiber and double knit covers, we can construct mattresses which result in a good night's sleep!

***Comfortable sleeping
on board.....***

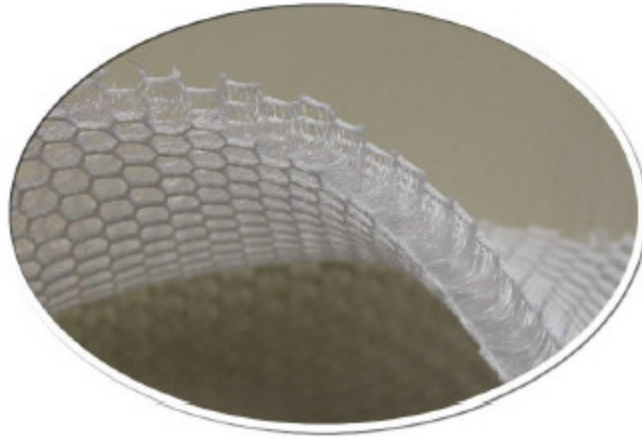

Quality and Materials.

The mattresses of Telstar Marine are synonymous with quality and durability. Only the best fabrics are used in the manufacture of the mattresses. These materials meet the most stringent requirements. The mattresses are tested for durability and comfort. Through intensive cooperation with various suppliers, a constant quality of the mattresses and beds are guaranteed. The Telstar Marine mattresses have in particular very good comfort and extremely ventilation properties.

Adequate ventilated mattresses!

An adequate ventilated mattress provides a constant airflow, giving the whole mattress that 'clean sheets' feeling.

The Telstar Marine mattresses include special 3D fabrics. Through very thin wires within the 3D fibre, moisture is easily transported. 3D fabrics are added to the bottom of the mattress and function as pressure distribution on the pocket spring and the edges of the mattress cover. This feature is exclusive to our mattresses!

Durability

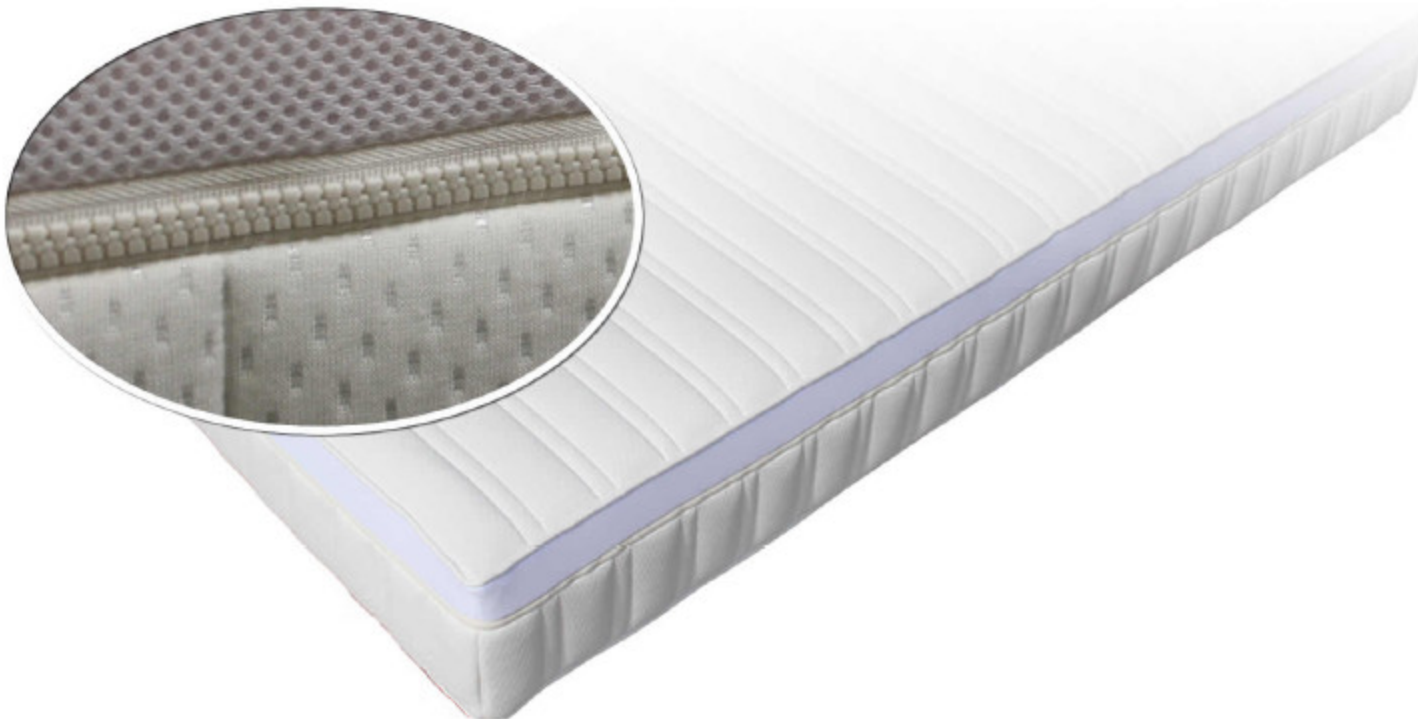

All type of pocket spring mattresses include a nylon band which holds the springs in place and increases the stability of the mattress as well as the life expectancy. Under normal use, the durability of a mattress is approximately 10 years.

High usability

Telstar Marine mattresses are carefully designed, resulting that the mattresses no longer need to be flipped. This means that this range of one sided mattresses is easy in use, without jeopardising its durability.

Knitted double cloth mattress cover

All mattresses include a luxurious double cloth cover, which improves comfort. However, the flexibility and resilience towards the pocket spring interiors and talalaylatex core still make it possible to easily adjust to your body shape. Shoulders and hips get more space, while waist and legs will benefit from more support.

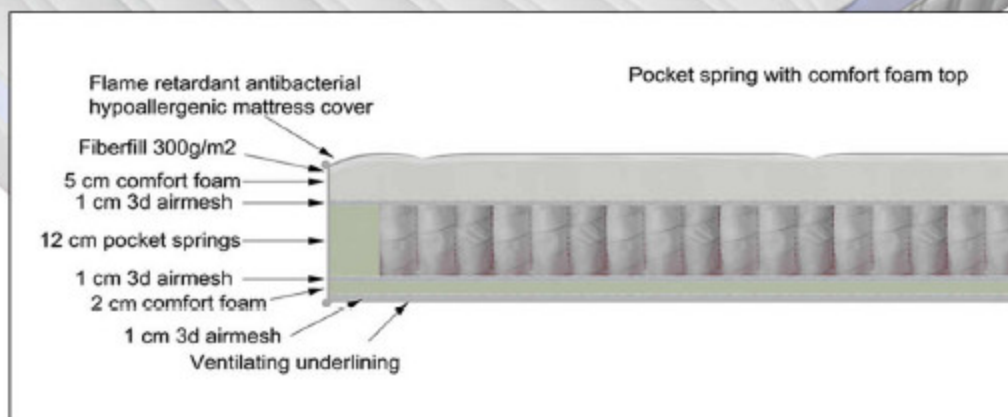

Barcelona

Pocket spring mattress with comfort foam

The cover is fitted with a border and top with 1-needle step pattern and a bottom with anti-slip.
The cover is blind tufted and completely removable by the 4-sided zipper.
The cover can be dry cleaned. Is fire retardant and anti-allergy.

Smoothly with the support of pressure relieving materials

This mattress can be described as smooth to medium in the range of mattresses of Telstar Marine. A mattress with good support and the feeling of firmness. The mattress gives modulation to shoulders and hips.

This is because the top side of the mattress is provided with an extra thick visco-elastic pressure-reducing covering layer (6cm). This takes pressure off on shoulders, hips, neck, nerves, muscles, bones and blood flow. You do not need to turn the mattress! That makes this series mattresses extremely easy in use. This has no affect on the durability of the mattress.

La Spezia

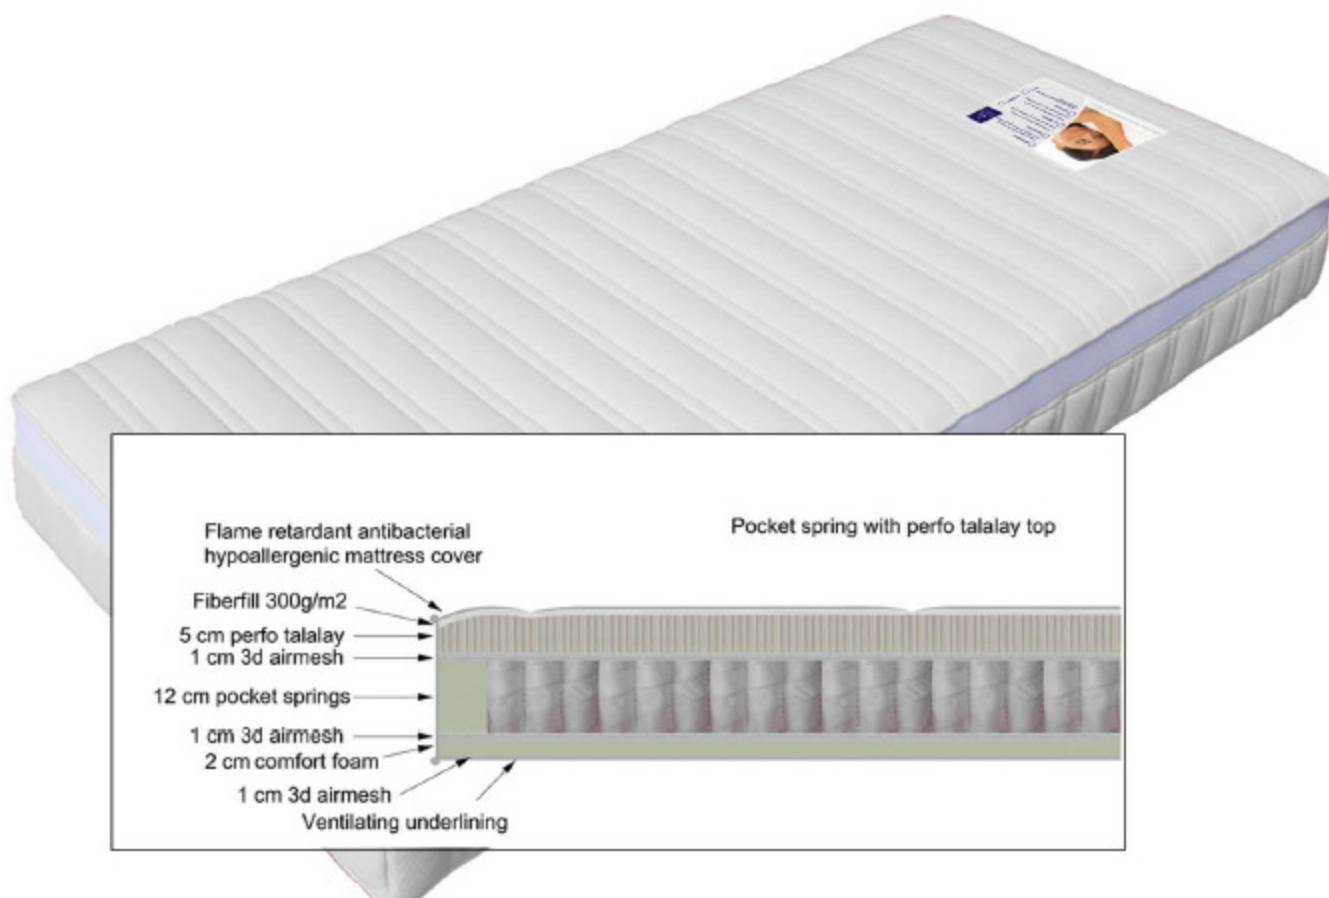

Pocket spring mattress with talalay latex

Interior:	-3D material as a basis for optimal ventilation -comfort foam at the bottom -interior pocket springs with nylon band around stabilization -pressure distributor 1cm 3D material for optimum ventilation -at the top 6cm talalay latex foam.
Zones:	9 Zone
Hight:	Approximately 25cm
Weight:	13 kg/m ²
Type:	Medium and firm
Cover:	Luxury double cloth cover. Lined with 600 grams of wool, cotton and dacron. The cover is fitted with a border and top with 1-needle step pattern and a bottom with anti-slip. The cover is blind tufted and completely removable by the 4-sided zipper. The cover can be dry cleaned. Is fire retardant and anti-allergy.

This pocket spring mattress is the most comfortable and flexible mattress out of the unique series of Telstar Marine mattresses. Sleeping on this mattress is like sleeping on water. The mattress provides ultimate flexibility with absolutely still enough support where you need it. In addition, the mattress has a exceptionally high usability.

- Flexibility and comfortable at the same time
- Lovely soft mattress with sufficient support
- Exceptionally high usability
- Additional ventilation and extra 3D moisture absorption
- Cover completely removable
- Cover Dry cleaned, fire retardant and anti-allergenic

When you normally would have opted for a medium or firm mattress, but appreciate the softness and flexibility of a soft mattress, this mattress is an interesting option. The addition of Talalay latex to mattress top enables a smooth transition to this type of mattress.

Valencia

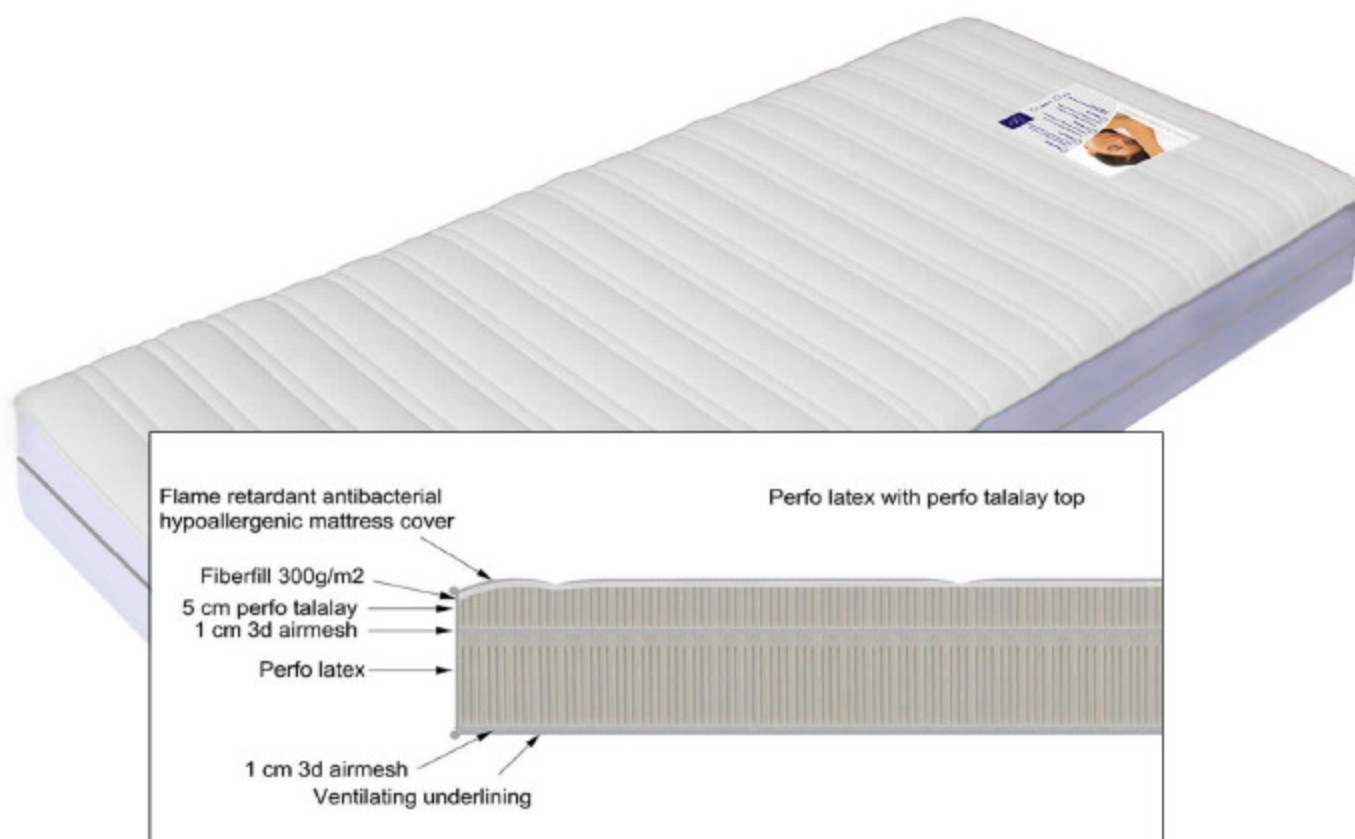

Latex mattress with talalay latex top

- Interior: -3D material as a basis for optimal ventilation
-perfo latex core
-pressure distributor 1cm 3D material for optimum ventilation
-at the top 6cm talalay latex.
- Hight: Approximately 25cm
- Type: Medium and firm
- Cover: Luxury double cloth cover. Lined with 600 grams of wool, cotton and dacron.
The cover is fitted with a border and top with 1-needle step pattern and a bottom with anti-slip.
The cover is blind tufted and completely removable by the 4-sided zipper.
The cover can be dry cleaned. Is fire retardant and anti-allergy.

Latex is a natural product, it is obtained from the tropical rubber tree species in South America and Asia. The juice from these trees is the raw material for a natural latex mattress. Natural materials have the advantage of good drainage of moisture and retain there resilience a long time. The Talalay latex has an extremely high open cell structure relative to ordinary latex. This benefits the resilience of the mattress, the ventilation and lying comfort!

- Souplesse
- Lovely soft mattress
- Exeptionally high usability
- Additional ventilation and extra 3D moisture absorption
- Cover completely removable
- Cover Dry cleaned, fire retardant and anti-allergenic

By including the use of Talalay latex top. These mattresses are generally appreciated by people with a lighter build and preference for soft sleeping.

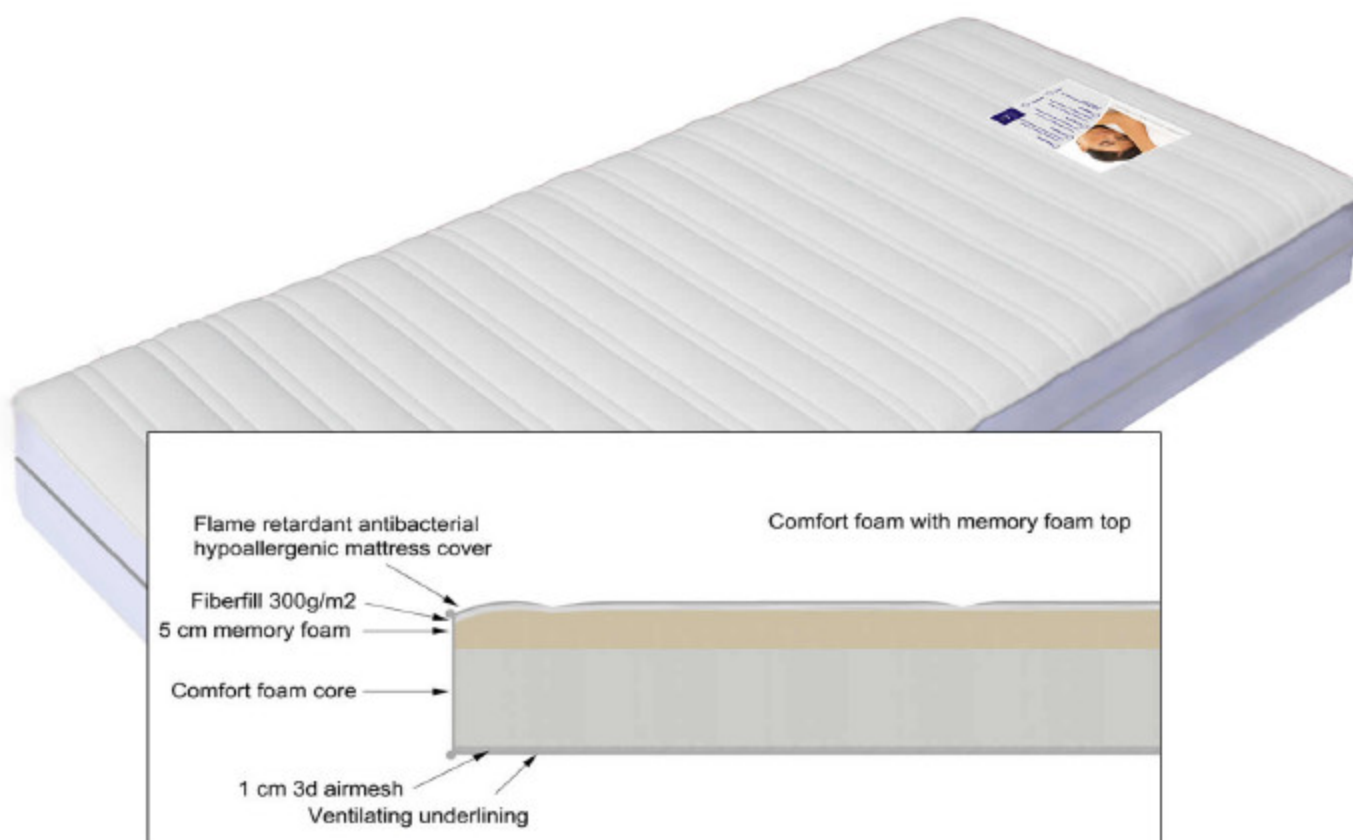

Nice

- Cover: Luxury double cloth cover. Lined with 600 grams of wool, cotton and dacron.
The cover is fitted with a border and top with 1-needle step pattern and a bottom with anti-slip.
The cover is blind tufted and completely removable by the 4-sided zipper.
The cover can be dry cleaned. Is fire retardant and anti-allergy.

Smoothly with the support of pressure relieving materials

This mattress has a similar top as the cartagena. Providing the pressure reducing layer that takes pressure off your shoulders, hips, neck, nerves, muscles, bones and blood flow. The core of this mattress is made out of comfort foam. Giving the mattress good stability but a little less elasticity and ventilation compared to the cartagena.

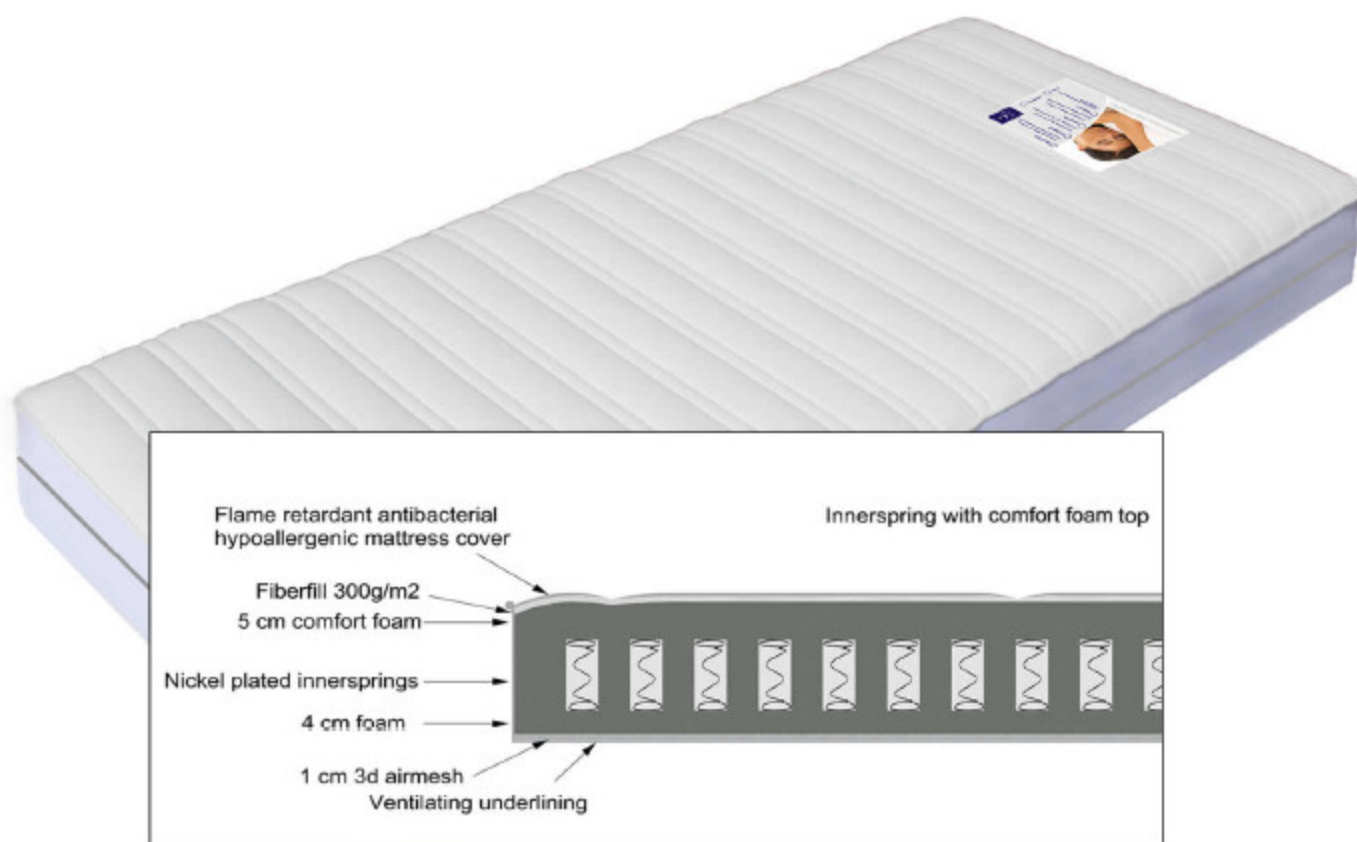

Imperia

Innerspring with comfort foam top

- Interior: -3D material as a basis for optimal ventilation
-comfort foam at the bottom.
-interior innerspring
-at the top 4cm comfort foam.
- Height: Approximately 15cm
